GameCraft Miniatures Paint Rack Drawer Assembly Diagram

GCmini recommends assembly with wood glue or white glue.

Dry fit all parts first to make sure you have everything right before gluing anything. To assure smooth operation of drawers you should sand the outside of the drawers after assembly to remove any excess glue. Also pay special attention to avoid excess glue inside the unit between parts 1, 2, and parts 5. Excess glue can obstruct the drawers operation.

If you have any questions about assembling the Paint Rack Drawers please email us directly at help@gcmini.com, or phone us at 760-363-2007
